Hotels

To book a hotel in (or near) Paris, the following websites may be considered:

▶ www.booking.com

▶ www.cityzenbooking.com : Appart'hotels, that is, apartments that include a room, bathroom and kitchen. For some of them, prices are relatively low.

▶ www.reservation-parishotels.com

To get more affordable prices, participants may consider staying in Levallois-Perret or Paris-La Defense, both cities close to Paris, only a few subway stations away from the Porte Maillot Metro station.
